PROFILE

Aspiring Front-End Developer with a non-IT background, seeking a dynamic 6-month internship to transition into the IT sector. Proficient in HTML, CSS, and JavaScript, eager to apply these skills in a practical setting. Committed to a steep learning curve and contributing to impactful projects while gaining hands-on experience. Excited about the opportunity to develop a solid foundation for a successful career in front-end development.

WORK EXPERIENCE

Intern, frontend development

Matrimony.com, [chennai]

- Contributed to the development of user interfaces, focusing on creating a seamless and visually appealing experience for Matrimony.com support team.
- Gained hands-on experience in HTML, CSS, JavaScript, and React.js, actively participating in the implementation of frontend features.
- Collaborated with the development team in developing environment, assisting in achieving project milestones and goals.

Non-IT Technical Support Specialist

Matrimony.com, [chennai]

- Provided technical support to users of Matrimony.com, assisting with inquiries and resolving issues related to the platform's features and functionalities.
- Collaborated with cross-functional teams to address complex technical challenges and ensure a seamless user experience.
- Conducted troubleshooting and root cause analysis to identify and resolve technical issues promptly.

FRONTEND DEVELOPMENT PROJECTS:

Personal Portfolio Website: HTML/CSS/JAVASCRIPT

- Designed and developed a personal portfolio website to showcase my skills, projects, and achievements. This project serves as an interactive representation of my abilities in front-end development and design.

Animated Signup and sign in Form :HTML/CSS/JAVASCRIPT

- Integrated an animated sign-in form with smooth transitions and interactive elements into my personal portfolio using HTML, CSS, and JavaScript.
- The sign-in form enhances the user experience through engaging animations and responsive design.

CRUD Application (React.js)

Utilized React hooks and state management for a seamless user experience.

E-Commerce Websites (HTML/CSS/JAVASCRIPT)

- The project focused on creating an intuitive and visually appealing online shopping experience.
